# EUROMAT2015

European Congress and Exhibition on Advanced Materials and Processes

## INVITATION TO SPONSORSHIP

Warsaw, 20th -24th September  
Warsaw University of Technology, Main Hall

[www.euromat2015.fems.org](http://www.euromat2015.fems.org)

Dear Sir/Madam,

We are honoured to invite you to participate in the **European Congress and Exhibition on Advanced Materials and Processes**, the largest material science conference in Poland, which will be held from 20 to 24 September 2015 in Warsaw at Warsaw University of Technology. We offer you the opportunity to present your company to the numerous high-profile representatives of the scientific community who will be attending at the event by cooperating with us and getting involved in sponsoring activities to support the organisation of the Congress.

The EUROMAT conferences have been held every two years since 1989, and have an increased record of bringing together up to 2000 researchers, scientists, trainees, and students from both academia and industry to discuss critical developments and perspectives in the field of materials science and technology and their applications. This year the event will be held in Warsaw, which is the first and so far the only city of Central and Eastern Europe to have been entrusted with the organisation of the Congress. In 2015, the symposia within the conference will be grouped under the main headings: (A) Functional Materials, (B) Structural Materials, (C) Processing, (D) Characterization and Modelling, (E) Energy and Environment, and (F) Biomaterials and Healthcare, and there will be additional contributions on (G) Education, Technology Transfer and Strategic Materials.

Main organisers of the **European Congress and Exhibition on Advanced Materials and Processes 2015** include:

- Federation of European Materials Societies (FEMS)
- Polish Association for Materials Science (PTM)
- Warsaw University of Technology.

Companies interested in promoting their products and publications among the participants of the European Congress and Exhibition on Advanced Materials and Process are welcome to take this sponsorship opportunity. The organiser of the event has prepared three sponsorship packages, which offer attractive rates and service scope, making it possible for companies to reach the decision-makers in the industry. Becoming a sponsor of the prestigious event translates into measurable advantages in the form of new contacts and clients.

We will also welcome sponsorship of the **European Congress and Exhibition on Advanced Materials and Processes 2015** in the form of products or services, e.g.:

- equipment necessary to organise the conference (a sound amplification system for the room, computer equipment, photos, flower supply, etc.),
- congress gadgets (conference bags, notepads, pens, small advertising gadgets for participants, journalists and guests),
- social events: Welcome Reception, coffee breaks, lunches.

The promotional and advertising services to be provided by the organisers in each of the sponsorship options may be negotiated individually.

We are convinced that the Sponsors' participation in the **European Congress and Exhibition on Advanced Materials and Processes 2015** will result in a potent promotional effect. We are confident that it will serve your company well and that your involvement will turn out to be an attractive opportunity.

Best regards,

**Profesor Wojciech Świążkowski**

Head of the EUROMAT 2015 Organising Committee

## Local Organizing Committee

- Wojciech Świąszkowski Faculty, of Materials Science and Engineering Warsaw University of Technology, PL
- Dariusz Kata, AGH University of Science and Technology, PL
- Łukasz Ciupiński, Warsaw University of Technology, PL
- Andrzej Kiełbus, Silesian University of Technology, PL
- Tomasz Czujko, Military Technical University of Technology in Warsaw, PL
- Łukasz Kaczmarek, Lodz University of Technology, PL

## Scientific Committee

### CHAIR

- A. Lindsay Greer, University of Cambridge, UK

### CO-CHAIR

- Małgorzata Lewandowska, Warsaw University of Technology, PL
- Jürgen Hirsch, Hydro Aluminium, R&D Bonn, DE
- Laura Montanaro, Dept. Applied Science and Technology – DISAT, Politecnico di Torino, IT
- Eva Olsson, Chalmers University of Technology, SE
- Boris Straumal, Institute of Solid State Physics, Russian Academy of Sciences, RU
- Brett Suddell, ASTUTE, College of Engineering, Swansea University, South Wales. UK
- Paula Vilarinho, University of Aveiro, Department of Materials and Ceramics Engineering, PT
- Pawel Zieba, Institute of Metallurgy and Materials Science, Polish Academy of Sciences, PL
- Hugh Dunlop FEMS & Constellium Technology Centre, FR (observer)
